

## Minutes meeting Berlin ECSR 2017

A smaller group of members from EuroNES had a good meeting in Berlin during the ESCR congress. We decided to apply for a both COST and Innovative Training Network.

The lead on the COST (European Cooperation in Science and Technology) application will be taken by Ingrid Melle from Oslo. New mails will follow asking for participation. Application is to be submitted by April 25th, 2018 and the final draft will be discussed during the SIRS.

Andre Aleman, Groningen will take the lead on the ITN (Innovative Training Networks) application.

We decided to have a meeting for all members of the EuroNES in Florence on the 4th of April as before before the opening of the congress from 15 o'clock. We plan to have two or three themes to be more thoroughly discussed after a brief introduction.

In Berlin we also discussed any ideas for collaboration for a SIRS symposia. Stephen Austin, Denmark suggested: enduring negative symptoms and will take contact for that.
